

netPark HAPPENINGS

Does netPark offer Contactless Parking Solutions?

Read on to find out.

The short answer is, yes we do! With the current health crisis with COVID-19, the health and safety of your customers are top priority. Our contactless parking solutions are at the forefront of the parking industry. Give your customers a seamless and contactless experience with our License Plate Recognition parking solution. Our solution uses proven technology to allow customers to enter and exit the parking area as efficiently as possible. The solution works with the following netPark features: online reservations (from your netPark-hosted website/mobile app, or from 3rd party websites), customer loyalty accounts with card on file, monthly billing parking accounts, and employee/staff vehicles or shuttle vehicles. Our advanced software technology reads the license plate and searches all of the above features for the license plate and then determines whether to let the customer enter. Once they are able to enter, our system automatically charges their card on file and then reads the license plate again once they are ready to leave.

This parking system offers HD imaging and can utilize most cameras that have ONVIF capabilities. If you do not have an ONVIF capable camera, we do have a partnership with a excellent dealer to provide you with the equipment needed. Our software also reduces overhead costs, allows for a customized setup, and is accessible from anywhere that you have access to your netPark account.

If you would like to find out more about our Contactless Parking Solutions, please contact the sales team at netPark at 833-638-7275 or sales@netpark.us.

Fire Island Ferries

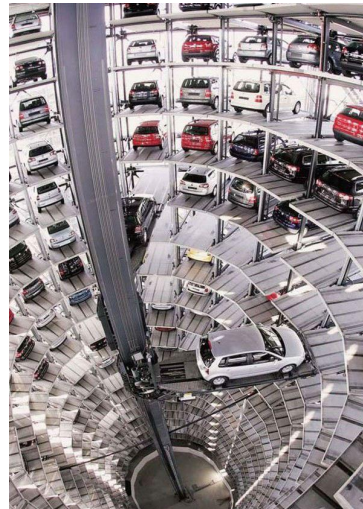

Van Allen

West Lafayette Public Library

Welcome to the netPark Family!

PARKING FUN

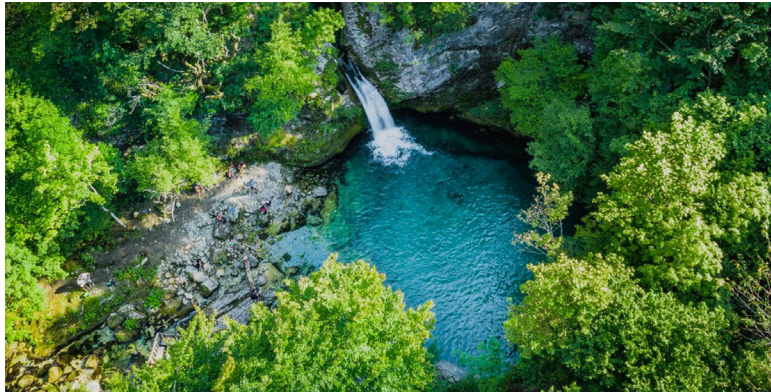

The first semi-automatic parking lot named Garage Rue de Ponthieu was built in Paris in 1905. It had a purpose-built elevator which lifted cars even several floors up, to be then parked by valeting service. This innovative solution is used even in modern times: e.g. in Wolfsburg at the Volkswagen headquarters in Germany.

SUPPORT HOURS

netPark's Support hours are 10:00 am to 6:00 pm EST Monday through Friday. We are always available for emergencies 24 hours a day. Please contact us via e-mail at Support@netpark.us or call 833-638-7275.
